tions Made in the Equipment.

An official communication from the Wheeling & Lake Eric Rallway Company summarizes the most important of the improvements made and being made on the line since January 1, 1897, as follows: Five thousand tons of seventy-pound steel rails have been purchased, of which 3,000 tons have been put in, two miles of extension of main track in Martin's Ferry in progress and fifteen miles of new sidings constructed and in progress. Twenty-seven spans, requiring 6,000,000 pounds of steel bridging, are under construction, with the necessary masonry for same. Four of the ten spans across Maumee river have been filled and the filling protected with heavy wall of rip-rap stone, and the remaining six spans are being reconstructed in steel. All new bridges are esigned to carry 126-ton engines.

Trouble for His Wife.

S. H. Snell came down from Pittsburgh early yesterday morning and proceeded to Investigate the whereabouts of his wife, Ida Snell, formerly of Wheeling. He finally located her at 1964 Market street, a bearding house, and alleges that he found her with another man. However, when with the assistance of an officer, he secured entrance to the place, no man was found. According to Shell, there was a man in the room, who wanted to jump out, but was held back by Mrs. Snell, and later escaped by a rear door. A warrant, charging adultery, was issued in Squire Pitxpatrick's court yesterday morning and Mrg. Snell was taken before him. The hearing was set for 3 o'clock this afternoon, and the woman placed in the county fail.

FOUND DEAD.

Why did he do it? He had everything to live for,—happy home, wife, friends, money; but he shot himself through the heart. Why?

He couldn't have given a good reason himself. But everything looked gloony to him. He was in argloomy frame of mind. It was the way he looked at life that day. He had been living in too much of a burry, rushing and driving at business, hustling through his meals, cutting short his sleep. His nerves got on edge; his stomach and liver got out of order; he grew dyspeptic and melaucholy.

When the digestion is out of order there is little use trying to look on the hright side of things, practically there isn't any bright side. This is a dangerous condition to get into. Yet it is easy to get into and mighty hard to get ont of it, unless you go about it in the right way.

There is a remedy that has pulled thomands of people right out of this dopth of despair. It is Dr. Pierce's Golden Medical Discovery. It acts directly upon the stomach and liver. It restores their natural capacity to nourish and purify the system. It purges away bilious poisons, feeds the nerve-centres with healthy, highly vitalized blood, and drives out the "blue devils" of melancholy and nervousness.

J. L. Warner, No. 1900 O Street, Sacrimiento, Cal., writes "During the last five years I have been doctoring with a many as its different doctors here and in San Francisco for diseased stomach, but one of the doctors gave me even temporary relief. The Register makes so many funny breaks nowadays that it requires one of special brilliance to stand out in ad-vance of the others and become particof special brillance to stand out in advance of the others and become particularly noticeable. One of this kind was printed Sunday. The Register's river man says Captain Inglebright's statement that the river is not so low now as it was two years ago is probably true with reference to that part of the river above and below the city, but that it cannot apply to the river in front of the city, and that the dredging at the Wheeling creek bar has caused the river at the public landing to seek a level lower than it reaches above and below town. Of course this is the veriest rot, and would be stamped as such by a ten-year-old school boy. Evidently such a thing as water seeking a level is not known in the Market street sanctum.
